AG MARSHALL URGES ALABAMIANS TO PARTICIPATE IN PRESCRIPTION DRUG TAKE-BACK DAY SATURDAY, OCT. 28

(MONTGOMERY)--- Attorney General Steve Marshall urges Alabamians to participate in the DEA Prescription Drug Take-Back Day, on Saturday, October 28, at various locations throughout the state.

This year's event – the 14th DEA National Prescription Drug Take-Back--has approximately 70 collection sites scheduled to be available in Alabama this Saturday from 10 a.m. to 2 p.m. The program is sponsored by the U.S. Drug Enforcement Administration (DEA) to combat the abuse or misuse of potentially dangerous medicines that have expired or are no longer needed for those whom these controlled substances were prescribed. Law enforcement officers will be present at sites throughout Alabama to receive unused prescription drugs for safe and proper disposal.

Since the first Take-Back event in Alabama, in September of 2010, the program continues to increase in the amount of drugs collected. DEA Prescription Drug Take-Back events last spring collected an estimated 6,287 pounds in Alabama of unwanted, expired or unused drugs for proper disposal. Throughout all of Alabama's previous DEA Prescription Drug Take-Back events, a total of about 53,712 pounds of unwanted, unused or expired drugs have been removed and disposed of safely.

"Prescription Drug Take-Back is a valuable public service that protects our children, our homes and our environment," said Attorney General Marshall. "As a prosecutor for 16 years, I have too often witnessed the tragic results caused by the availability of dangerous controlled substances. When prescription drugs are left in our homes, children and teenagers may be poisoned or fall prey to drug abuse and addiction. Your old medications can be a lure to criminals looking for drugs to use or sell. On Saturday, October 28, please take the opportunity to remove these hazards by bringing prescription drugs that are out-of-date or no longer needed to collection sites for their safe and proper disposal."

--more--

Law enforcement agencies and interested community partners such as pharmacies, schools and civic groups are working together to provide as many local sites as possible throughout Alabama. Each site will be supervised by a law enforcement officer due to the involvement of controlled substances.

Deliveries of drugs to DEA Prescription Drug Take-Back Day events are confidential, with no personal information collected and no questions asked. Participants are encouraged to remove labels or black-out information beforehand.

Many teenagers and young people who abuse prescription drugs get them from family and friends or from their home medicine cabinets. Prescription drugs pose dangers to children and others who may take them by accident or who may use them for abusive purposes. Expired drugs may have lost their effectiveness and therefore no longer be a safe and adequate treatment for the conditions for which they were prescribed. In addition to concerns of potential poisoning, abuse or overdose, it also is important environmentally that medicines be disposed of in a proper manner rather than simply being thrown into garbage, flushed away or poured down drains, as they could contaminate water supplies and cause an environmental hazard.

People who wish to participate should inquire with their local law enforcement agencies, or may check the DEA website for a nearby location. A listing of sites may be found through a search at www.dea.gov. If you do not find your area listed on the DEA website, please check with your local law enforcement officials to see if they may be participating in a Take-Back event.
